Typical Properties:

Appearance:	Milky White Flakes
Ionic State:	Weakly Cationic
PH	± 4.5
Solubility	Soluble in water.

Special Features:

- *** it gives very soft, smooth & bulky Handle.
- *** Enhance Sewing Performances.
- *** increase Fiber Lubrication
- *** Improve Antistatic Property
- *** Suitable for Cotton, Blends and Synthetics

Application Method:

Recommended Dosage

Padding Process

Dosage: 15 – 25 g/l

Bath PH: 5 – 5.5

Drying: 130 – 160 Deg. C

Exhaust System:

Dosage 0.3 – 0.4 %
Bath PH 5 – 5.5

Bath Temp 40–45 deg. C
Time 15 – 20 min

Storage: 1 year
Packing: 25 kg
